Safety Compliance

A Tune-up for Long-term Care Facilities

Greg Barnes PT, M.B.A.

Note to Participants: There are interactive pop-up questions throughout this lecture. If you choose to pause the lecture and return at a later time, a natural break time would be after answering the interactive questions. (You are able to pause at any time and the presentation will "remember" where you were. It's just a more natural time to pause after the interactive questions.) For your convenience, this outline reflects where/when within the lecture the interactive questions occur.

This lecture has 28 slides and is 35 minutes in duration.

- I. Let's talk about safety
 - A. Why focus on safety?
 - B. What safety regulations are most important?
- II. Policies and procedures required by OSHA in the long-term care setting
